

Rabbit anti p90RSK (pSer352)

- Catalog Number:** pAP11113
Amount: 100µl (for 10 Western Blotting)
Swiss-Prot No. : P18653
Form of Antibody: Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage/Stability: Store at -20°C/1 year
Immunogen: The antiserum was produced against synthesized phosphopeptide derived from mouse p90RSK around the phosphorylation site of serine 352 (R-D-S_P-P-G).
Purification: The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site.
Specificity/Sensitivity: p90RSK (Phospho-Ser352) Antibody detects endogenous levels of p90RSK only when phosphorylated at serine 352.
Reactivity: Human, Mouse, Rat
Applications: 1:1000
