## Rat anti-human Angiotensin-like 3

### ORDERING INFORMATION

**Catalog No:** hAP-0634  
**Size:** 100 µg  
**Storage:** < -20° C  
**Immunogen:** Human recombinant Angiotensin-like 3  
**Ig Type:** Rat IgG2  
**Clone:** MM0634-2H44  
**Applications:** ELISA

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a Rat immunized with human recombinant protein of Angiotensin-like 3).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 200 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody was selected for its ability to detect human Angiotensin-like 3 in ELISA.

### Applications:

1. ELISA Yes (1:1000-2000)

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only**
